

Sunu Sukesan

Full-Stack Developer

✉ sunusukesan96@gmail.com ☎ 7025895876 📍 Kerala, India 🐙 GitHub 🔗 Web-Portfolio

PROFESSIONAL SUMMARY

Passionate Full-Stack Developer with hands-on experience building RESTful APIs and responsive web applications. Skilled in authentication systems, relational database design, and scalable backend development. Strong problem-solving mindset with a focus on clean, maintainable code.

EDUCATION

09/2025 – Present	Full-Stack Web Development with Generative AI Masai
2018 – 2020	Master Of Computer Applications Sree Narayana Institute Of Technology
2015 – 2018	BSc Computer Science University Institute Of Technology

SKILLS & INTERESTS

Frontend HTML5, CSS3, JavaScript (ES6+), React.js, Responsive Web Design, UI/UX Fundamentals	Backend Node js, Express,, Restful APIs, JWT
Database PostgreSQL, Supa base, SQL, Relational Database Design, Data Modeling, Query Optimization,	Tools GitHub, Postman, API Testing, VS Code
Soft Skills Problem-solving, Critical & Analytical Thinking, Research Skills, Organizational & Time Management Skills, Collaboration & Teamwork, Adaptability	Hobbies & Passions Playing Logic Games & Puzzles, Gardening, Music & Movies, Teaching, Craft designing and making, Baking

Work Experience

2022 – Present	Working as an Academic Tutor I work as a Private Tutor, providing academic support to students up to Class 12. I help clarify concepts, improve subject understanding, and support academic performance through structured and personalized lessons.
06/2024 Remote	PwC Switzerland – Virtual Internship (Power BI, Forage) 🔗 Completed a virtual internship simulating real-world business tasks using Power BI. Analyzed call center performance, customer retention, and diversity data, developing interactive dashboards and key KPIs to generate actionable insights
2024 Remote	Accenture Data Analytics and Visualization Job Simulation-Virtual Internship 🔗 Completed a virtual internship where I analyzed and cleaned data, built visualizations, and prepared presentations to advise a hypothetical social media client on trends and insights. Used data analytics and storytelling techniques to communicate findings and recommendations.

2021 – 2022

Junior Software Developer

Got trained as a **Junior Developer** at **Orisys Academy**, completing hands-on on-job training in software development, gained practical experience in coding, debugging, testing, and deploying applications. Worked on real-world projects using technologies Python, SQL, HTML/CSS, JavaScript while learning software development best practices, problem-solving techniques, and project workflow management.

PROJECTS

Track Your Time With Me - AI Project [↗](#)

- Developed a responsive web app for tracking and scheduling daily activities with AI-powered insights.
- Implemented secure authentication (email/password & Google) using Firebase Auth.
- Built time logging and activity visualization features using Firebase Firestore.
- Developed the frontend with React.js and TypeScript for a dynamic user experience.
- GitHub: <https://github.com/ItsmeSunuS/minute-mosaic-19> [↗](#)

Timeless Style. Modern Craft- AI Powered [↗](#)

- Developed and deployed a full-stack web application on a live [lovable.app](#) [↗](#) URL.
- Built the app using the AI-powered [Lovable.dev](#) [↗](#) platform through prompt-based development.
- Designed a responsive UI with integrated backend functionality, delivering the project from concept to deployment.

Book Management App with Firebase [↗](#)

JavaScript, Firebase, HTML5, CSS3, Realtime Database, Authentication

- Built a complete CRUD application for managing book collections with firebase backend
- Implemented Firebase Realtime Database for instant data synchronization

Fleet Management Application [↗](#)

HTML5, CSS3, JavaScript, DOM Manipulation, Responsive Design

- Developed a fleet management dashboard for vehicle tracking and management
- Implemented data visualization for fleet performance metrics and analytics

Product Showcase Platform [↗](#)

JavaScript, HTML5, CSS3, CSS Grid, Flexbox, DOM

- Developed a product showcase page with dynamic filtering and sorting capabilities
- Implemented responsive CSS Grid and Flexbox layouts
